2010 Webinar Training Series

We are pleased to invite you to sign up to participate in The National Wraparound Initiative’s 2010 Webinar Training Series.

The mission of the National Wraparound Initiative is to promote understanding about the components and benefits of wraparound, and to provide the field with resources and guidance that facilitate high quality and consistent wraparound implementation.

In 2010, the NWI is teaming up with the Technical Assistance Partnership ([www.tapartnership.org](http://www.tapartnership.org)) to present a series of web-based trainings and technical assistance sessions about high-quality wraparound implementation, and the organizational and system supports that facilitate it. Presentations from national experts and NWI advisors will last one hour and be followed by 30 minutes of open discussion. Throughout the webinars, presenters will direct participants to relevant NWI materials to support implementation.

There are no registration fees. Participants will need to have access to the internet as well as a phone line. Long distance charges may apply. Please visit our website: [www.nwi.pdx.edu](http://www.nwi.pdx.edu) for registration information and full up-to-date information about the 2010 Calendar of webinars.
