This bibliography includes articles and reports that present, summarize and/or comment on results of qualitative and quantitative research on ISP/Wraparound. The most comprehensive reviews of quantitative research on the ISP/Wraparound approach can be found in Burns, Hoagwood, & Mrzeck (1999); Burns, et al. (2000); and Burchard, Bruns, & Burchard (2002). Discussions of treatment fidelity and tools to measure fidelity can be found in the articles with Bruns as first author as well as in Epstein (1998); Nordness & Epstein (2003); and Walker, Koroloff, & Schutte (2003). Measures of organizational and system support for the ISP/Wraparound process can be found in Walker, Koroloff, & Schutte (2003).
