NWI WEBINAR #15 POLL QUESTIONS
National Wraparound Initiative Webinar Series:
The Wraparound Team Monitoring System (Wrap-TMS)

(Choose the best answer): I am a
Poll Results (single answer required):
- Youth or family member or youth/family advocate: 2%
- Provider (Facilitator, Parent Partner, Supervisor, Admin): 52%
- Evaluation or Information Technology Specialist: 16%
- Public systems representative (e.g., State or local level): 20%
- Trainer or TA provider: 9%

(Check all that apply): What data elements does your wraparound or system of care initiative’s IT system manage?
Poll Results (multiple answers allowed):
- Not applicable -- I am not part of a wrap or system of care: 8%
- Service elements such as plans, strategies, services, costs: 52%
- Process data: fidelity, satisfaction, progress toward goals: 45%
- Outcomes data (placements, academic/community functioning): 48%
- We don’t have a system that manages elements such as these: 31%

(Check all that apply): What aspects of the Wrap-TMS system seem most appealing or important?
Poll Results (multiple answers allowed):
- Facilitate data-driven supervision: 61%
- Produce high level (e.g., agency/state) reports on outcomes: 71%
- Serve as an electronic health record: 39%
- Interoperate (i.e., link) with existing data systems: 40%
- Flexibility and customization to my organization/system: 61%

(Choose the best answer): What do you think would be your initiative’s interest in the Wraparound Team Monitoring System?
Poll Results (single answer required):
- High: we do not have a wraparound-specific IT system: 38%
- High: looks like an improvement on our current system: 15%
- High: TMS could add needed functions to our current system: 9%
- Low: We are not in a position to consider a new IT system: 21%
- Low: We have an IT system that meets our needs: 17%
