The Document Assessment and Review Tool (DART): A New Approach to Assessing Fidelity and Quality of Wraparound Care Coordination

Philip H. Benjamin, M.A., Research Study Supervisor
Lydia Andris, Evaluation Specialist
Eric J. Bruns, Ph.D., Professor

Wraparound Evaluation and Research Team (WERT), Depart. of Psychiatry & Behavioral Sciences, University of Washington
Agenda for the Webinar

- Brief review of “fidelity” in Wraparound
- The Wraparound Fidelity Assessment System (WFAS)
- Overview of the DART
  - Source materials
  - Structure
  - Sample Items
  - Procedures
- Becoming a DART reviewer
- How to license the DART
- Questions and Answers
Introduction

Before looking closely at the Document Assessment and Review Tool (DART) it is important to understand:

- What it means to assess “fidelity” in Wraparound

- The DART as one of many Wraparound Fidelity Assessment System (WFAS) tools
Fidelity Measurement

What is *fidelity*?

- Definition: The extent to which a treatment or intervention is delivered as intended, based on its theory of change

What does it mean for *Wraparound*?

- Adhere to the 10 *principles*
- Effectively implement the four *phases and activities*
- Stay true to the five *essential elements*
Principles of Wraparound

Family Voice & Choice

- Individualized
- Strengths-Based
- Natural Supports
- Collaboration
- Unconditional Care
- Community-Based
- Culturally Competent
- Team-Based
- Outcome-Based
The Phases of Wraparound

- **Phase 1A**: Engagement and Support
- **Phase 1B**: Team Preparation
- **Phase 2**: Initial Plan Development
- **Phase 3**: Implementation
- **Phase 4**: Transition
Fidelity Measurement: WFAS tools

A multi-method approach to assessing the quality and context of individualized care planning and management for children and youth with complex needs and their families

- **Interview**: Wraparound Fidelity Index, v. 4
- **Survey**: short form, WFI-EZ
- **Observation**: Team Observation Measure, Version 2.0
- **Chart Review**: Document Assessment and Review Tool, v.2
- **Program & System Assessments**: Stakeholder Survey / Standards Assessment

WFAS
Wraparound Fidelity Assessment System
The DART provides a means for coding the presence or absence of indicators of wraparound practice adherence and quality as typically available from documentation:

- Referral paperwork
- Strengths, Needs & Culture discovery/family story
- CFT meeting notes/documentation/attendance
- Standardized assessments
- Progress Notes
- Documentation from Systems Partners
- Crisis/Safety plan
- Transition plans
- Any other paperwork that is unique to your system or providers that would include relevant information
Sections of the DART

Section A: Review Information
Section B: Case Information
Section C: Youth Information
Section D: Timely Engagement
Section E: Wraparound Key Elements*
Section F: Safety Planning
Section G: Crisis Response
Section H: Transition Planning and Reason
Section I: Outcomes

*Items in this section of the DART are organized by and map to Key Elements of Wraparound practice as supported by training, coaching, and technical assistance provided by the National Wraparound Implementation Center (NWIC). Effective teamwork is not included because these interactions are not readily assessable via documentation.
Sections A-C

Wraparound Fidelity Assessment System

Wraparound Document Assessment and Review Tool (DART)

October 2019 Version

Section A: Review Information

A1. Review Date: __________________________
A2. Agency/Provider ID: ________________________
A3. Reviewer ID: ____________________________
A4. Minutes spent reviewing record: ____________

Section B: Youth Information

B1. Youth ID: ________________________________
B2. Youth’s Age at Enrollment: ________________
B3. Youth’s Gender:  ☐ Male  ☐ Female  ☐ Transgender
B4. Is the youth of Hispanic origin?  ☐ Yes  ☐ No
B5. Youth’s Race:
☐ American Indian or Alaska Native  ☐ Multi-Racial (please specify):
☐ Asian
☐ African American
☐ Native Hawaiian or Pacific Islander
☐ Other (please specify):
B6. At enrollment, which of the following issues was the youth experiencing? (check all that apply)
☒ Depression  ☐ Bipolar Disorder  ☐ Anxiety
☒ Autism/DD  ☐ ADD/ADHD  ☐ ODD
☒ Substance use/abuse  ☐ Suicidality/Self-harm  ☐ Trauancy
☒ Criminal behavior  ☐ Poor school performance
☒ Child Welfare Involvement  ☐ Interpersonal conflict with family/peers
☐ Others:

Section B: Continued

B7. At enrollment, where was the youth living?
☐ With two (birth, step, or adoptive) parents
☐ With one parent
☐ With relatives  ☐ In a foster home  ☐ With friends
☐ In residential care  ☐ In detention  ☐ Homeless
☐ Hospitalized for psychiatric reasons
☐ Other:

Section C: Basic Information

C1. Phase:  ☐ Engagement  ☐ Plan Development  ☐ Implementation
☐ Transition  ☐ Exit/No Date
C2. Core Coordinator ID: ________________________
C5. Enrollment Date: ________________________
C3. Referral Date: ____________________________
C6. Exit/Close Date: __________________________
C4. Referral Source: __________________________

C7. Was a Child and Family Team established that includes at a minimum a facilitator/care coordinator, a caregiver, and the child/youth?  ☐ Yes  ☐ No
C8. Was at least one Plan of Care developed for this youth?  ☐ Yes  ☐ No
C9. Has the Child and Family Team met at least two times?  ☐ Yes  ☐ No

If your answer to C7, C8, or C9 was “No”, you are done reviewing documentation for this youth. If your answers were “Yes” to all three questions, please proceed to Section D on the next page.
Minimum Criteria for DART Scoring

Complete a DART on youth whose records show clear evidence that:

1. A child and family team was established
2. Plan of care was developed
3. The team has met ≥ 2 times
# Attendance Grid

**Wraparound Document Assessment and Review Tool**

**Wraparound Fidelity Assessment System**

*October 2019 Version*

**Child and Family Team Meeting (CFTM) Attendance Grid**

Completing this table is recommended, but optional. Doing so, will make it easier to answer subsequent questions. Use the team meeting sign-in sheets, in addition to the Plans of Care, to determine dates of meetings and who was present at each meeting. After entering meeting date, enter the number of each type of attendee present. Enter “0” if there was no one in that role at the meeting but should have been (see scoring rules). Use N/A for role(s) that are not relevant/appropriate for this particular Child and Family Team and/or Wraparound Initiative.

<table>
<thead>
<tr>
<th>Team Members’ Relationship to Youth (please do not use names)</th>
<th>Dates of Child and Family Team Meetings (write in)*</th>
</tr>

*NOTE: IF FEWER THAN TWO CFTMs HAVE OCCURRED AND/OR NO PLAN OF CARE HAS BEEN DEVELOPED, DO NOT COMPLETE THIS TOOL. JUST DO SECTIONS A.C.*
Scored Fidelity Sections

Fidelity is assessed via 48 items organized by 6 subscales:

1. Timely Engagement (7 items)
2. Key Elements (25 items)
   - Meeting attendance
   - Driven by Strengths and Families
   - Based on Priority Needs
   - Use of Natural and Community Supports
   - Outcome-Based Process
3. Safety Planning (3 items)
4. Crisis Response (3 items)
5. Transition Planning (3 items)
6. Outcomes (7 items)
Assigning Scores

► Reviewers score whether or not each item of the tool was in evidence in the case file on a scale from 0-2, or Yes/No, -depending on the item in question

  • For some indicators “Not Applicable” or “Missing” are options

### Section I: Outcomes

**Wraparound Fidelity Assessment System**

**Wraparoun Document Assessment and Review Tool**

**October 2019 Version**

**Scoring Code (see manual for full scoring rules):**
- 2 or Y—Fully Met
- 1—Partially Met
- 0 or N—Not Met
- N/A—Not Applicable for family being reviewed
- Miss—Not able to determine due to missing documentation

**Section I: Outcomes (N/A for families enrolled for fewer than six months)**

*Data Sources: Progress Notes, plans of care, Documentation from System Partners
  (Preferably, base scores on standardized instruments or data, such as CAMS, CAPAS, CBCL, school records, progress consistently measured by the team, etc.)*

Qualifications for Use

IDEALLY, Reviewers should:

- Not be directly involved with the families whose records are being reviewed
- Not personally know, or at least supervise, the care coordinators whose records are being reviewed
- Have adequate knowledge of the local service delivery system, the Wraparound process, and the DART User Manual
- Have sufficient practice administering the DART
Current Training Protocol

1. **Overview of the Wraparound process**
   - including its principles, key elements, and four phases and activities

2. **Overview of the DART**
   - purpose and structure of the DART,
   - general DART administration procedures contained in the manual
   - individual DART items and scoring rules contained in the manual

3. **Practice on a local case**
   - Group practice document review of real (local) charts with an experienced reviewer, either from WERT or a local expert

4. **Double scoring and reviewing cases**
   - until reviewers are scoring cases similarly.

5. **Periodic group and/or supervisor review**
   - of randomly selected cases
Future Training Protocol

Will add a step between 2 & 3.

Future reviewers will be asked to score one, or two, gold standard sample cases, as needed.

- Must achieve 80% inter-rater reliability to pass and go on to the next step
- Able to compare answers to “gold standard” ratings (with justification included)
Time Commitment

- **During Training:** It may take several hours or even days to complete the initial few DARTs. As reviewers become more familiar with the tool, the manual, and the organization of the paperwork, it will take less time.

- **After Training:** It typically takes 60 minutes to review one youth record, when done in a focused and efficient manner.
Sampling Guidelines

- Necessary to administer the DART with a sample of records that is representative of the initiative or project overall.

- A stratified random sample of 20-30% of the families each care coordinator is working with is recommended.

  - Ex: If each care coordinator has a caseload of 10 families, 2-3 records per care coordinator should be randomly chosen for review.

  - The new WrapStat data management system, coming in Sept 2020 with a DART license, will help projects/initiatives easily identify whose records to sample.
Interrater Reliability

For each round of DARTs we recommend that you **double score** (two different reviewers) a certain percent of them. That percent changes depending on how many cases you plan to score using the DART:

<table>
<thead>
<tr>
<th>Number of Cases Scoring</th>
<th>Recommended Percent of Cases to double score</th>
</tr>
</thead>
<tbody>
<tr>
<td>&gt;30</td>
<td>20%</td>
</tr>
<tr>
<td>10-30</td>
<td>30%</td>
</tr>
<tr>
<td>&lt;10</td>
<td>50%</td>
</tr>
</tbody>
</table>

Double scoring will help ensure that interrater reliability is maintained. “**Drift**” (slow movement away scoring consistently) can occur over time. A slip in interrater reliability can be a sign that a training refresher is necessary for DART reviewers.
Inter-Rater Reliability (Initial test)

Interested in Licensing the DART?

Simply:

1. Go to:  
   https://els.comotion.uw.edu/express_license_technologies/document-assessment-and-review-tool-dart  
   The University of Washington’s CoMotion Express Licensing site, Document Assessment and Review Tool (DART)

2. Click “License” button

3. Follow directions - will either ask you to download a pdf or click to request a copy be sent

4. Complete the blank fields in the agreement and exhibits

5. Print & sign the agreement.

6. Mail, fax, or email the signed agreement to CoMotion

7. Receive Invoice from CoMotion

8. Mail in license fee

9. Receive Welcome email from WERT

10. Gain access to: the DART instrument, training resources, and the WFAS data management system
Launching a new WFAS data management system 9/1/20

Initiating “Limited Term Agreements” - (ie less than a year)

Charging based on annual license fees, prorated on a daily basis - all terminate on 8/31/20

<table>
<thead>
<tr>
<th>Startup Fee</th>
